MOUNT GEORGE TRAIL NETWORK

STAGE 1

SUMMIT TRAILS

KEystone 2.8HM

The primary climbing trail from the trail head carpark to the start of the Mount George Summit descending trails.

BUZZCUT 2.2HM

Buzzcut is the primary descending trail that lets you roll all the way back to the trail head, or cut back onto Keystone so you can session your favourite sections.

DESPERADO 2.1HM

An alternative descending trail, Desperado is a little longer, a little wider, has larger features, and gives you the opportunity for a little more airtime.

HEBE JEEBIES 0.8HM

Hebe Jeebies is a gnarlier descent option, and a good introduction to the dolerite rock slabs, which are a characteristic of the area.

STICKY BEAK 1.4HM

Starting from the Trail Head carpark, Sticky Beak contours around the base of Mount George, allowing for loops that are shorter and flatter than climbing up Keystone, and providing access to the East Peak Trails.

EAST PEAK TRAILS

ROCA DEL VISTA 2.8HM

Roca del Vista is a climbing trail that takes you to the craggy lookout of Bell Bay View, offering expansive views over George Town and surrounds.

HELTER SMLTER 1.5HM

Starting at Bell Bay View, Helter Smelter is the primary descending trail starting off East Peak. Like molten aluminium, this trail has plenty of flow.

6061 0.8HM

Starting at Bell Bay View, 6061 offers a faster alternative descent from East Peak with bigger features and more opportunity for airtime.

GADANGA DANG 0.6HM

Starting from Bell Bay View, pick your line through or over the rocks, and listen to sweet chatter of your drivetrain as you glide through the rock gardens.

MEGAWATT 0.6HM

Popping straight off the front of Bell Bay View and into the first berm, Megawatt offers multiple lines and multiple opportunities to get rad.

GREEN CIRCLE - Easy

Suitable for mountain bikers with mountain bikes. Single-track with mostly gentle gradients, smooth to variable surfaces, and some avoidable obstacles such as rocks, roots and logs on the primary line.

BLUE SQUARE - Intermediate

Suitable for skilled mountain bikers with mountain bikes. Single-track with moderate gradients, some steep climbs / descents, and obstacles such as rocks, roots and logs on the primary line.

BLACK DIAMOND - Difficult

Suitable for experienced mountain bikers, used to physically demanding and challenging routes. Single-track, with steep climbs / descents, and dangerous unavoidable obstacles on variable and loose surfaces. Some sections will be easier to walk.

NOTE: WEATHER AND SOIL CONDITIONS MAY MEAN NOT ALL TRAILS ARE OPEN

**MT GEORGE TRAIL NETWORK OFFICIALLY OPENS
TO THE GENERAL PUBLIC FROM SUNDAY 3 OCTOBER**
