TL3 Partnership Brokers

Contact:: Lorraine McNamara
6343 3361

Cost: Dependent on service provided

Where: TL3 is a mobile service with offices in Launceston, Devonport & Burnie

Referral Process: Not required

Availability: As required

About service: Our motivations are simple, we want to see the Tasmanian community prosper. We have a team of innovative and enthusiastic individuals who think outside the square and thrive on a challenge! We have a strong reputation for delivering professional and high quality projects and programs which address industry and community needs within Tasmania and provide opportunities for individuals to develop new skills and knowledge and to access education, employment and life opportunities which help them to reach for their potential. Often organisations can see the gaps for young people achieving their potential, but cannot develop the solution alone. We are an extra set of hands, or flexible resource that can get solutions underway and on-track. Whilst our programs can include older target groups they must include young people, up to 24 years old as a

primary focus group.

TL3 deliver the School Business Community Partnership Brokers (SBCPB) contract for the North and North West of Tasmania which is funded by the Australian Department of Education, The School Business Community Partnership Broker program identifies the roadblocks, gaps or issues that are affecting young peoples' capacity to achieve their full education, training or career potential, and then supports schools, community and business to work in collaboration to address these issues. This program encourages a whole -of-community approach as we work with organisations that help young people realize their maximum potential through making better learning and work choices.

Eligibility: As identified
